*The goal of income investing is to create dependable
monthly income from your retirement nest egg.*

To determine the historical yield for each asset class, we looked at a 10-year range for the Alerian MLP Index (MLPs), MSCI US REIT Index (REITs), S&P 500 Dividend Aristocrats Index (Dividend Stocks), S-Net Composite CEF Index (CEFs), Bloomberg Aggregate Bond Index (Bonds), S&P Preferred Stock Index (Preferreds). We used a range that was +/- one standard deviation from the 10-year average and rounded to the nearest 0.5%.

Building a Customized Portfolio Yield

We target a total yield based on each client's unique circumstances using diverse sources of return.

How Can Capital Investment Advisors Help You?

Capital Investment Advisors is a family owned fee-only financial advisory firm whose core business for the past 25 years has been working with retirees to create customized income investment portfolios that seek to provide a dependable monthly income from their retirement nest eggs.

Our income investment portfolios are customized to seek the specific situations of our clients and can easily be modified should circumstances change. We also offer a tax sensitive investment strategy for after-tax accounts.

Clients have a dedicated advisor who is available to answer questions or concerns over the phone or by email. We prefer to meet annually for a face-to-face or virtual portfolio review.
